

Sell Aequitas. Earn flat referral fees.

Aequitas Medical is software that turns hours of chart review into minutes — producing thorough, evidence-grounded medical-legal reports where every claim is cited to the record. The AI drafts; the physician edits and signs. Built for the plaintiff referral world: New York No-Fault & Workers' Comp, and Connecticut letter-of-protection cases.

The opportunity

- Flat referral fees for every qualified account you source
- Non-exclusive — New York, New Jersey & Connecticut
- We run demos, set pricing, sign & onboard — you make the introduction

Who you sell to

- Referring attorneys & law firms (No-Fault · Workers' Comp · LOP)
- Examining & treating physicians
- You promote; the medical opinion and the sale stay with us

How it works

- 1 **You introduce** — bring us prospective firms and physicians and point them to our pilot and demo resources.
- 2 **We convert** — we run the demonstration, set pricing, sign the agreement, and onboard the customer.
- 3 **You earn** — a flat fee for each qualified account, credited when it activates or converts.

What we ask of partners

- Promote only with our approved materials — no off-script claims about the platform.
- Never give medical, legal, billing, or coding advice.
- Never access, handle, or transmit PHI or case-specific information.
- You're an independent contractor — no setting pricing, signing agreements, or binding the company.
- Compensation is for lawful sales & marketing activity only — never a share of any report or professional fee, and never for the referral of patients or cases.

Ready to partner? Apply in two minutes at aequitasmedical.com/resellers, or email aequitas@kronosgroup.health. We'll follow up with the reseller agreement and next steps.
